

Logo and visual identity Guidelines

The logo

The logo in grayscale is presented in black, with the 'M' and 'Euro-Mediterraneo' at 60% black.

The B/N logo in positive is presented entirely in black.

The B/N logo in negative is presented entirely in white.

Follow the parameters listed here for printing in BLUE and ORANGE using CMYK, RGB, web, and Pantone. For digital printing, CMYK parameters are recommended, but ensure that the colors are not too saturated in order to avoid discrepancies.

The logo applied on the institutional colors is always white.

Never place the logo in black on the institutional colors.

For proper identification of the logo, a clear space is defined that corresponds to 1/5 of its size.

For proper legibility, the logo must not be used below the minimum size of 50 mm in width. It may be used down to 15 mm in width in the version without the full statement 'Centro Euro-Mediterraneo sui Cambiamenti Climatici'.

The vertical logo may be used when:

- it is necessary to use it with the full statement 'Centro Euro-Mediterraneo sui Cambiamenti Climatici' in spaces smaller than 50 mm;
- it needs to be placed next to other logos, all with a vertical orientation (e.g., next to municipal or provincial coats of arms);
- it needs to be displayed on banners or posters, like a 'standard'.

The logo in grayscale is presented in black, with the 'M' and 'Euro-Mediterraneo' at 60% black.

The B/N logo in positive is presented entirely in black.

The B/N logo in negative is presented entirely in white.

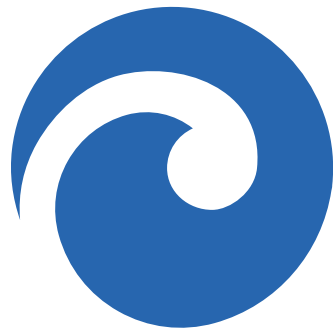

For proper identification of the logo, a clear space is defined that corresponds to 1/5 of its size.

For proper legibility, the vertical logo must not be used below the minimum size of 30 mm in width.

It is possible to use the pictogram alone as a graphic element in posters, brochures, postcards, and hypergraphics.
